Dr Agus Haryanto:

We have reached a decision regarding your submission to International Journal of Renewable Energy Development, "Economic Benefit and Greenhouse Gas Emission Reduction Potential of A Family-Scale Cowdung Anaerobic Biogas Digester".

Our decision is to: Revise

Dr H Hadiyanto
(Scopus ID : 7409585558, H-Index : 8), Center of Biomass and Renewable Energy (CBIOR), Diponegoro University
hadiyanto@live.undip.ac.id

Reviewer A:

"Economic Benefit and Greenhouse Gas Emission Reduction Potential of A Family-Scale Cowdung Anaerobic Biogas Digester" has relatively good data. But to be published in IJRED, some revisions is necessary

- The language should be more polished. Please complete the author(s) name and affiliation!
- "The number of community cows has increased significantly from 391,846 heads in 2004 to 778,050 heads in 2012 (BPS Lampung, 2013)." Please use the newest data 2017.
- Please give the species name of that cow! Domestic cow, or simmental cow, or etc.....
- From Table 2, Why water content increased, total solid decreased, volatile solid decreased, and ash decreased during digestion process? Author(s) should explain it
- From Table 4, have you ever been heard 4.5 head of cows? Living things are like animal, human, or plant should be measured as integer. You should write 4 or 5 even as "average data"
- In section 3.3, please change IRD to IDR! Economic comparison between LPG utilization and biogas utilization must be shown to reader or reviewer
- Author(s) should add the future prospect of biogas in Lampung (or in Indonesia), and how to increase the economic value of biogas utilization (as section 3.4)!

Dear Dr Agus Haryanto

Your manuscript submitted to International Journal of Renewable Energy Development, entitled
"Economic Benefit and Greenhouse Gas Emission Reduction Potential of A Family-Scale Cowdung Anaerobic Biogas Digester"
has been subjected to a double-blind review process by IJRED reviewers who are experts in the related fields.

Based on the reviewers' recommendations, I am delighted to inform you that your manuscript has been ACCEPTED for the International Journal of Renewable Energy Development.

Thank you very much for submitting your article to the International Journal of Renewable Energy Development. I look forward to receiving the revised version of your manuscript.

Sincerely,

Dr H Hadiyanto

Dr Agus Haryanto:

Your submission "Economic Benefit and Greenhouse Gas Emission Reduction Potential of A Family-Scale Cowdung Anaerobic Biogas Digester" for International Journal of Renewable Energy Development has been through the first step of copyediting, and is available for you to review by following these steps.

1. Click on the Submission URL below.
2. Log into the journal and click on the File that appears in Step 1.
3. Open the downloaded submission.
4. Review the text, including copyediting proposals and Author Queries.
5. Make any copyediting changes that would further improve the text.
6. When completed, upload the file in Step 2.
7. Click on METADATA to check indexing information for completeness and accuracy.
8. Send the COMPLETE email to the editor and copyeditor.

Submission URL:

<http://ejournal.undip.ac.id/index.php/ijred/author/submissionEditing/13453>

Username: agusharyanto65

This is the last opportunity to make substantial copyediting changes to the submission. The proofreading stage, that follows the preparation of the galleys, is restricted to correcting typographical and layout errors.

Please also do payment of the processing cost of 150 US and should be paid via paypal account: hadiyanto.undip@gmail.com or via bank transfer:

Acc. Holder : Hadiyanto(C-BIORE)
Acc. Nr : 135-00-0705294-5
Bank Name : Bank Mandiri
Bank Branch : Bank Mandiri Srandol
Address : Jl. Setiabudi No. G 62 E & F Semarang
Swiftcode : BMRIIDJA854

If you are unable to undertake this work at this time or have any questions, please contact me. Thank you for your contribution to this journal.

Dear Dr. Hadiyanto,

1) I have made two changes on the revised version:

a. On page 5, col. 1, paragraph 1:

Change: TS and VS contents decrease while water content increases.

Into: TS and VS contents decrease while water content increases.

b. Page 7, Conclusion:

Change: 1,450,970 IDR/year 111.6 USD/year.

Into: 1,450,970 IDR/year or 111.6 USD/year.

2) Doc file have been uploaded.

3) However, I have question about how to revise the METADATA.

There are some changes on the ABSTRACT, but I could not make it.

4) I have made payment on March 17, 2017 (receipt attached)

5) Would you please send me receipt of this payment?

Thanks,

Agus Haryanto
