The paper is very interesting subject in development of biogas for rural area. Some remarks need to be responded

1. State the objective in the introduction (end of section)
2. What substrate did they use? give also the characteristic
3. What are those legends stated Fig 2? They never been explained..such as UQ-7, UQ8 etc
4. Explained also in material and method how the substrate treated..what are the water content and Total solid?
