Natural Product Research - GNPL-2017-1386 has been unsubmitted

External Inbox x

Natural Product Research <onbehalfof+alessandro.venditti+gmail.com@manuscriptcentral.com> Fri, Jul 28, 2017, 3:49 AM

to me

27-Jul-2017

Dear Dr Noviany:

Your above referenced manuscript, entitled "Sesbagrandidiflorin A and B: isolation of two new 2-arylbenzofurans from the stem bark of Sesbaniagrandidiflora" has been unsubmitted to Natural Product Research. It may either have been unsubmitted because you did not complete all necessary parts of the submission.

NMR table(s) may be submitted as supplementary materials, only the NMR data of the new compound(s) should be reported as a list in the experimental section.

HMBC, ROESY, NOESY and 1H-1H-COSY now are routine experiments for the determination of a new structure. Therefore we suggest that figure(s) reporting 2D-NMR correlations should be submitted as supplementary material together with the corresponding spectra.

Original spectra of the new compound(s) should be provided as supplementary materials.

Supplementary material should be provided in a single supplementary file. The first page should clearly indicate the title of the paper, the authors, and the abstract; the rest of the file should provide all supplementary material. Please note that when directing the reader to supplementary material in the article itself, supplementary material should be indicated by an 'S' prefix e.g. Table S1, Figure S1, and so on, in order to differentiate it from the figures and tables that will actually be appearing in the main document of the article.

Please note that when directing the reader to supplementary material in the article itself, supplementary material should be indicated by an 'S' prefix e.g. Table S1, Figure S1, and so on, in order to differentiate it from the figures and tables that will actually be appearing in the main document of the article.

In addition, it is necessary to add a relevant detail. The studied organism should be carefully identified and the voucher specimen number should be reported.

Please visit the instructions to authors web page (<http://www.tandfonline.com/action/authorSubmission?journalCode=gnp120&page=instructions#.vDAo4BZDgQE>) to complete your submission and re-submit the manuscript for consideration of publication. You may contact the Editorial Office if you have further questions.

Sincerely,
Dr Alessandro Venditti

Dear Dr Noviany:

Your above referenced manuscript, entitled "Sesbagrandidiflorin A and B: isolation of two new 2-arylbenzofurans from the stem bark of Sesbaniagrandi flora" has been unsubmitted to Natural Product Research.

The manuscript is still not formatted in accordance with the guidelines of the Journal. In particular:

Required layout for papers is:

- Title page
- Abstract
- Keywords
- 1. Introduction
- 2. Results and Discussion
- 3. Experimental
- 4. Conclusions (then the usual, un-numbered)
- Acknowledgements
- References

Natural Product Research - GNP... x EVISE and EES are decommission... x My Drive - Google Drive x +

Dear Dr Noviany,

This is a message to update you on the progress of your Natural Product Research submission 'Sesbagrandiflorain A and B: isolation of two new 2-arylbenzofurans from the stem bark of Sesbaniagrandi flora' (GNPL-2017-1386).

We have now received the initial reviews requested for your manuscript and the editor, Professor Armandodoriano Bianco, is reading through them in order to make a decision (or consult a further reviewer if this is deemed necessary).

Thank you for your patience during the reviewing process and for choosing Natural Product Research as an outlet for your work.

We hope to be in touch with further news as soon as possible.

Best regards,
Dr Alessandro Venditti

26-Nov-2017

Dear Dr Noviany:

Your manuscript entitled "Sesbagrandidlorain A and B: isolation of two new 2-arylbenzofurans from the stem bark of Sesbaniagrandi flora" which you submitted to Natural Product Research, has been reviewed. The reviewer comments are included at the bottom of this letter.

I regret to inform you that the reviewers have raised serious concerns, and therefore your paper cannot be accepted for publication in Natural Product Research. However since the reviewers do find some merit in the paper, I would be willing to reconsider if you wish to undertake major revisions and re-submit, addressing the referees' concerns.

Please note that resubmitting your manuscript does not guarantee eventual acceptance, and that your resubmission will be subject to re-review before a decision is rendered.

You will be unable to make your revisions on the originally submitted version of your manuscript. Instead, revise your manuscript using a word processing program and save it on your computer.

To start your resubmission, please click on the link below:

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

Your Author Publishing Agreement (APA) with Taylor and Francis

Attention: Noviany Noviany

Hello,

In order to publish your article, "Sesbagrandiflorain A and B: isolation of two new 2-arylbenzofurans from the stem bark of *Sesbania grandiflora*", we ask that you complete your Author Publishing Agreement. Please click the link below (or copy the URL into your browser) to launch our online Author Publishing Agreement portal. The process should take only a few minutes. In most cases, you will receive immediate notice that your agreement is **accepted** and will be able to download a copy of it for your records.

Please do not reply to this email. If you need immediate assistance concerning your article, please instead contact GNPL-production@journals.tandf.co.uk.

Publication Options for your Article GNPL 1425858 External

GNPL-production@journals.tandf.co.uk <cats@taylorandfrancis.com> Wed, Jan 10, 2018, 12:08 PM

Article: *Sesbigrandiflorain A and B: isolation of two new 2-arylbenzofurans from the stem bark of *Sesbania grandiflora**

Journal: *Natural Product Research* (GNPL)

Article ID: GNPL 1425858

Dear Noviany Noviany

Your article listed above is currently in production with **Taylor & Francis**.

We are delighted that you have chosen to publish your paper in *Natural Product Research*. This email is to tell you about the publication options available to you.

Standard publication route

Your article will be automatically published on this basis. We do not require confirmation that you wish to use the standard publication route.

Your article will be published in the journal, and made available online permanently for subscribers and licensed institutions throughout the world, including provision of online access through developing world initiatives. You will also receive a link via email that you can send to 50 colleagues who can download the article free of charge. After the embargo period for this journal, you may deposit the Accepted Manuscript into an institutional or subject repository (Green Open Access) (see our [guide to publishing Open Access with Taylor & Francis](#) for further information).

Gold Open Access publication

You have the option to pay a charge to make the final version of your article freely available online at the point of publication, permanently, for anyone to read (Gold Open Access). This requires payment of an Article Publishing Charge (APC). Please note that this option is strictly your choice, and is not required for

Manuscript Title: Sesbgrandiflorain A and B: isolation of two new 2-arylbenzofurans from the stem bark of Sesbania grandiflora
Manuscript DOI: 10.1080/14786419.2018.1425858
Journal: Natural Product Research

Date proof corrections submitted: 13 Jan 2018

Dear Noviany Noviany,

This email confirms that you have submitted your corrections to your proofs via the **Taylor & Francis** online proofing system. Attached is a PDF record of your corrections.

If any of this information is incorrect, please contact the Production Editor:

Iniya Chitravel
Email: GNPL-production@journals.tandf.co.uk

We would be grateful if you could answer this very short questionnaire to provide feedback on how you found the online proofing process. It should take about 1-2 minutes to complete: <http://www.surveygizmo.eu/s3/90026339/Taylor-Francis-Online-Correction-Tool-S>

Thank you.

Yours sincerely,
