Dear Khoirin Nisa,

How are you? I am Cathy Jones from SAP (Scientific & Academic Publishing). I am writing to confirm whether you have received the "Review Paper (ID: 111400446, entitled: Selecting the Method to Overcome Partial Multicollinearity in Binary Logistic Model) from SAP", since I have not got any reply from you.

If you never hear from me on any emails, please check your "Spam folder". We do apologize that many emails we sent are intercepted for some reasons cause some misunderstands between the authors and SAP. Or you can log in our website to download the Review Result.

Kindly informed me the paper status. It will be very appreciated that you send a clean copy as required time. The sooner your paper is accepted, the it will be published online.

Looking forward to hearing from you soon.

sooner

Sincerely,

Cathy Jones
