Dear Dr. Anjum Sherasiya  
Editor-Veterinary World  
Star, Gulshan Park,  
NH-8A, Chandrapur Road, Wankaner 363621  
Dist. Morbi (Gujarat) INDIA

Thank you very much for your email, Dr Anjum, for making our manuscript better.

With this email, I will confirm that the revisions in our manuscript was noted with red colour of writings.

It should be noted that there is revision of the title of our manuscript to "CHEMICAL COMPOSITIONS, CONTAMINANTS, AND RESIDUES OF ORGANIC AND CONVENTIONAL GOAT MILK IN BOGOR DISTRICT, INDONESIA".

Regarding the revised manuscript, actually we included the final revised word file with revisions and comments from reviewers and editors.

The answer to the second comment of reviewer (2. We do not have LS-MS/MS facility in the laboratory), we wrote it in line 336-338.

The third answer to the comment of reviewer (3 Antibiotic residue testing was carried out using screening tests based on Indonesian national standards, namely penicillin, tetracycline, macrolides, and aminoglycosides. Other that because dairy goat farmers in Bogor use it for the treatment of mastitis infections), we wrote it in line 321-327.

Thank you very much for your attention.

Best regards,

Veronica Wanniatie.
