Dear Mr. Gigih Nama:

Information about your paper #1570757392 ('Design and Implementation of Smart Energy Management System Integrated with Internet of Things (IoT) Technology in Engineering Faculty Unila') for 1st ICCTEIE'21 was changed by Gigih Forda Nama:

Dikpride Despa added as author

No further action is required from you.

If you have already submitted your manuscript, you can change it at any time before the deadline, by following the instructions below:

- Via web form upload:

- Via ftp: You can upload the paper to , using the file name 1570757392.

You can see all your submissions and their status at

<https://edas.info/index.php?c=28772>

using the EDAS user name

From there, you can see the current status of the paper, whether a manuscript has been submitted and can edit the paper information.

You can directly view information about your paper at <https://edas.info/showPaper.php?m=1570757392>

Once you update your manuscript, you will receive another email confirmation. Confirmations for ftp submissions may take up to one hour since the ftp directory is swept only periodically.

Regards,
The conference chairs

Authors of this manuscript are suggested to confirm their manuscript with the IEEE template especially font type/size, tables and graphics display. Please also to have the paper proof-read before submission to avoid grammatical errors. Non-English words must be translated to English in order to help the readers understand the paper.

The authors are recommended to improve the literature reviews to better indicate its contribution.

Section II.D. indicates that the IKE is measured however, in other part of the manuscript, it is a calculated value. Please provide consistency regarding this.

Minor revision is need to meet the conference paper format, such as the equation number. Many figures are also need to redraw. Text in figures should be in English only. The authors also are needed to provide better figure quality.

The paper seems to be quite good written. However, there some improvements are needed to be done:

- Please use English rather than Indonesian language, on the main text of manuscript, on the figures (such as the axis labels, etc). Avoid to use Indonesian language.
- Check the English for grammar mistakes.
- Please refer the IEEE conference paper template on how to write the equations.
- Any place that is mentioned on the paper needs to be write clearly in English caused, not the people are familiar with place, if it is written in Indonesian language.
- Fields of the table in Fig. 5 needs to be written in English, so the reader can understand.
- Literature review needs to include the currenct related works from journal and proceeding papers.
- Time zone of WIB is sound not familiar for everyone in the world.
- Need to write more on the conclusion section. Not only to put the main sentence.
- To cite the figure, write Fig. 1 rather than Figure 1. Check the entire figure.
- To write table caption use romans number. Please refer to the paper template.

Regards,

The conference chairs
