This paper: n Enterprise Architecture Planning for Higher Education Using The Open Group Architecture Framework (TOGAF): Case Study University of Lampung. It is suitable to the conference. All Table and Figures are poorly labeled and small to read. All discussion must relate to previous studies (supported by references) and theories used in this study. The article does not comply with the IEEE format in any aspect, it must be fully corrected.

This information system focuses is in university business process. Despite supported by many literature, it is lack explanation on technological aspects. To make the paper stronger, the author should give more explanation of figure 4, I thought this is the essence of this paper. The writer also can reduce the theoretical explanation in the first two section
