Dear Mr. Gigih Nama:

Congratulations - your paper #1570303406 ('Real-time Monitoring System of Electrical Quantities on ICT Centre Building University of Lampung Based on Embedded Single Board Computer BCM2835') for ICIC2016 has been **accepted** for presentation in ICIC 2016 Conference in Lombok on 28-29 Ocotober 2016.

The reviews are included at the bottom of this email or can be found at http://edas.info/showPaper.php?m=1570303406. Please kindly revise your paper according to the feedback from the reviewers.

Please prepare the camera ready paper per the instruction listed on http://icic-aptikom.org// Your paper will not be included in the conference proceedings unless the following are done: 1. Revise your paper(s) according to the reviewers' comments. 2. The accepted similarity level is maximum 20% as indicated in EDAS similarity check. 3. Format your camera paper as per guidelines and follow strickly the A4-IEEE format in pdf file by creating it using IEEE pdf express. (https://www.pdf-express.org/plus, Conference ID: 39193XP) 4. Please make sure that your paper has a minimum of 4 full-pages and maximum 6 pages. 5. Upload your camera ready paper to EDAS final manuscript by **5 Sept 2016** (strick-deadline) 6. Fully-completed signed copyright form from your EDAS submission (by following the c icon) 7. Fill up the registration form and send it to icic.aptikom@gmail.com together with the proof of your payment (The registration form can be downloaded from http://icic-aptikom.org/ select Registration menu).

The following is the review of your paper ======= Meta review 1 =======

> *** Detailed Comments: Please justify your recommendation and suggest improvements in technical content or presentation.

- Research method is not clearly
- Contribution in this research is weakly

======= Meta review 2 =======

> *** Detailed Comments: Please justify your recommendation and suggest improvements in technical content or presentation.

It is an interesting work however it needs to add the state-of-the-art references. Some references cannot be opened such as 1. https://openenergymonitor.org/emon/buildingblocks/ctsensors- interface 2. http://www.raspberrypi.org/wpcontent/uploads/2012/02/BCM2835-ARM-Peripherals.pdf Please find good references for your paper

The authors need to add more analysis of your results and correct the grammatical errors.

======= Meta review 3 =======

> *** Detailed Comments: Please justify your recommendation and suggest improvements in technical content or presentation.

Title is too long (mare than 10 words). Number in name and email address that were not shown. The abstract is too long, and it is must in one block. There are several wrong words for example: can be access (must be "can be accessed"), plane (must be "plan"), June 19 2016 (must be "June 19th, 2016), etc. Several figures are too small so we can not read the words.

Kind regards,
TPC Chair of ICIC-2016

Dear ICIC 2016 Conference Commitee,

how can we submit the final manuscript?, because on edas there is no link to upload final manuscript,
Thankyou.
