Dear authors:

We would like to acknowledge you that we have received your final manuscript which was submitted on September 21, 2015.
However we still found some minor recommended improvement, namely:

Please refer to the IEEE Manuscript Template for Conference Proceeding
1. In the manuscript please revise the format writing for reference number [3-5,7,8,10-28]. In author's name : First name is abbreviated. e.g. G. Eason, B. Noble, etc
Example:

[3] Jiangping Shuai, Peter Buck, Paul Sockett, Jeff Aramini and Frank
Pollari, "A GIS-driven integrated real-time surveillance pilot system
for national West Nile virus dead bird surveillance in Canada",
International Journal of Health Geographics, Volume 5, Issue 17,
2006.

it should be:

[3] J. Shuai, P. Buck, P. Sockett, J. Aramini and F. Pollari, "A GIS-driven integrated real-time surveillance pilot system for national West Nile virus dead bird surveillance in Canada," International Journal of Health Geographics, vol. 5, Issue 17, 2006.

2. Reference [14] please fix these author names :
F. B. Abdullahi, M.M Lawal, J.O Agushaka3,
The "3" after J. O. Agushaka3, is it his true name or just typos?
3. For authors from one affiliation: remove the superscript index "1" in every author's name because all of the authors share one affiliation or use different superscript index to refer each author's email address.
4. Use standard margin in IEEE Manuscript template for conference proceeding

We will really appreciate if you can finish them by September 25, 2015.
If in any case you do not wish to do the recommended improvement from the reviewers, please inform us the background reason.

We apologize that we may not accept papers that are not updated with recommended improvements from reviewers.

Thank you.

Regards,
The Technical program chairs

Dear ICSITech Commite,

How about our latest revised paper, is there any suggestion from reviewer ? , how about the payment for this 2-nd paper ? , according to the website we should pay Rp. 750.000 for the 2-nd paper.

Thank You.

Yes first author of those Paper (1st and 2nd) was the same name (Gigih Forda Nama), our latest revision already submit through edas application on September 21, 2015 19:34 , this revision base on suggestion of the commitee bellow

===

Here we give some explanations about writing references according to IEEE template, for example:
[1] G. Eason, B. Noble, and I.N. Sneddon, "On certain integrals of Lipschitz-Hankel type involving products of Bessel functions," Phil. Trans. Roy. Soc. London, vol. A247, pp. 529-551, April 1955

1. In author's name : First name is abbreviated. e.g. G. Eason, B. Noble
2. In journal's or proceeding's name : Write them without italic. e.g. Phil. Trans. Roy. Soc. London

And other revisions:
Please refer to the IEEE Manuscript Template for Conference Proceeding
1. In abstract section:

Abstract – The work on this paper focuses on the development of a Geographic Information System (GIS) for public service on Bandar Lampung City ....
Only the "Abstract" word should be italic.

2. In Keywords section:

Keywords: web-based geographical information system; GIS; public services on bandar lampung city; UML
Keywords should be italic

3. Citation/reference number should be written consecutively according to their appearance in the paragraph.
4. In "There were total 1.395 places mark already submitted to system". Please make sure whether the author want to write decimal or period because period is used instead of comma for decimal format.

4. Use standard margin in IEEE Manuscript template for conference proceeding

We will really appreciate if you can finish them by September 25, 2015.
If in any case you do not wish to do the recommended improvement from the reviewers, please inform us the background reason.

We apologize that we may not accept papers that are not updated with recommended improvements from reviewers.

Thank you.

Regards,
The Technical program chairs
