Reviewer A:

This articles is interesting, but some part is needed to improve

Recommendation: Revisions Required

Reviewer B:

Title: Because your finding only come from one subdistrict, it is better to add in your title this finding ": finding from..." or ".....: a case study in".

Reviewer B:

Title: Because your finding only come from one subdistrict, it is better to add in your title this finding ": finding from..." or ".....: a case study in".

Abstract: the final statement is not good enough to show that climate change adaptation is necessary.

Introduction:

Line 24-31 can be shorter because line 32 repeat the same thing.

Line 38-51: need to be better in bringin the flow of the story

Line 52-60: the story is not focusing on climate change impact on rice production, therefore need this research.

Too many citing Murniati. Better to not over citing one author/work.

Line 159: the model is not clear, where it come from, or the name of the model.

Line 211: adaptive or adaftife?

Table: bahasa indonesia is found, it also found in Table 7

Table 6, 7 : Bahasa Indonesia Number Writing Style

Table 8: no consistent in writing decimal

Line 280: the conclusion better to uses District or Subdistrict

Line 283: I think the las sentence is not match with previous sentence, because the previous sentence put climate change strategy as one of the factor, but the last sentence conclude the climate change strategy only

Recommendation: Revisions Required
