Mr Junaidi
here you have the comments from our referent

General comment: An interesting manuscript dealing with a topic, namely conductive layers based on silver nanowires by spray coating process, which falls within the journal areas of interest and a good contribution to the research field approached.

Introduction: Previous studies related to the research field and aims of their work are clearly presented by the authors in the Introduction.

Methodology: The authors give a detailed and well-organized presentation of the synthesis method and coating procedure with Ag NWs including the materials and equipment utilized during the experiments.

Results: Good presentation of experimental results. The figures included in the manuscript are well-placed, well-prepared and relevant for the research results.

Discussion : Discussion is detailed providing literature references related to the research work in order to sustain the results acquired.

Bibliography/References: According to the journal paper template the bibliographic references should be numbered in order of appearance. The authors of the manuscript are not in total agreement with this requirement. For instance, the authors give reference <11> and further present references <14, 17> which are not shown in previous phrases of the manuscript text. Moreover, both references 30 and 34 appear in the reference list and are not shown in brackets in the manuscript text. The authors should remedy these issues throughout the entire document making sure to maintain the correct correlation between the reference numbering in the text and the literature cited. The reference list should be carefully revised.

Others The manuscript is presented in an appropriate scientific language and displays good English proficiency. The Conclusions part provides a well-written summary of the manuscript content and results.

Final Note The manuscript should be revised accordingly.

Please do all the modifications requested by referent and upload the manuscript again in the system with user and password you already have.
Name the file 20.0320.rev.1.....
We would be grateful to include few references from our journals, "Revista de Chimie" and "Materiale Plastice", 2018, 2019. Thank you!

Have a nice day!

Dear Ms. Alice Cristea,

Thank you for your information.
I agree to pay the publication fee.

Since currently I have no research funding, I will choose the regular one, so it's okay for me to be published in August or September this year.

Sorry for this decision.

Best regards,

Dr. Junaidi

Dear Ms. Alice Cristea,

I am sorry, yesterday I was confirmed by my bank that the transfer had failed.
I will do the transfer again on monday.
For that purpose, could you please send me information about the bank details for me to do transfer.

Thank you and looking forward to hearing from you soon.

Dear Ms. Alice Cristea,

Good morning from Indonesia. I hope you, your family and entire team members of Revista De Chimie are well and safe from Covid-19 which had severe effect to many countries in the world including Romania and Indonesia.

I ask your apology but I would like to know the the status of my paper with registration number 20.0320.

Has it been finalized. We have sent the correction last week.

Thank you and look forward to hearing from you soon.

Best regards,

Dr. Junaidi

Dear Dr. Junaidi,

Thank you for your thoughts! We are OK so far, hope you and your family are well too!

I will check and get back to you.

You know you will have to pay a publication fee if your article will be OK.

250 Euros - if you are not in a hurry, that means your article will be published in august - september - 2020.

500 Euros - and your article will be published in 1 - 2 month, if it is OK. (250 Euros publication fee + 250 Euros emergency fee)

Let me know if I may help you with other info.

Best Regards,

Alice Cristea
