Dear **Dr. Muh Sarkowi**

Your manuscript has obtained major revisions. In this case we normally treat it as unacceptable for publication. However, as numerous editorial errors have pointed out by the reviewers, the **Iranian Journal of Earth Sciences** editor believes that the manuscript could be rectified and prepare for possible publication.

Please let us know your views in this regard and in the case of positive response, reply us within 15 days time.

Truly yours,

Dr. Rahim Dabiri  
Editor in Chief of Iranian Journal of Earth Sciences

Reviewers Recommendation:

**Reviewer 1:**

Reviewer Comment For Author:

Thank you for your informative and instructive study. There are some minor corrections. You can find them following:

1. There is a difference between the colors used in the explanations and the colors of the geological map in Figure 1. Red and brown are incompatible.
2. In the Introduction section, some examples related to the site effect in recent years should also be included such as

Over S, Büyüksaraç A, Bektaş Ö, Filazi A, Assessment of potential seismic hazard and site effect in Antakya (Hatay Province), SE Turkey, Environmental Earth Sciences, 62(2), 313-326 (2011).

Büyüksaraç A, Bektaş Ö, Yılmaz H, Arısoy MÖ, Preliminary Seismic Microzonation of Sivas city (Turkey) using Microtremor and Refraction Microtremor (ReMi) Measurements. Journal of Seismology, 17(2), 425–435 (2013)

Bekler T, Demirci A, Ekinci YL, Büyüksaraç A, Analysis of local site conditions through geophysical parameters at a city under earthquake threat: Çanakkale, NW Turkey, Journal of Applied Geophysics, 163, 31-39 (2019)

3. In Fig.4, the date is incorrect (October 2, 2010 ?)

4. It should be 1st, 2nd, 3rd in Figure 6 and Figure 7.

## Reviewers Recommendation:

**Reviewer 1:**

## Reviewer Comment For Author:

Dear Authors,

Thank you for considering the corrections I suggested. However, some new bugs have emerged.

- 1- There is a typo on lines 62 and 63 in the Introduction. It should be in the form of "Büyüksaraç et al. 2013; Bekler et al. 2019".
- 2- In Figure 7, the date is given incorrectly in the first graph. Written as 02.07.2020 instead of 24.09.2020
- 3- In Figure 8 you just added, 1st and 3rd are mixed.
- 4- Your calculations in Table 3 may vary depending on the confusion above. Please check.
- 5- Revise the values given in the Conclusions, taking into account the warnings above.

**Reviewer 2:**

## Reviewer Comment For Author:

Some of them are shown in the manuscript, but they are not shown in the reference section. Please double-check references in the manuscript and the reference section accordingly.
