Amrizal Nalis:

Thank you for submitting the manuscript, "ICOMEET - Performance analysis of PV/T-TEC collector for the tropical climate conditions of Indonesia" to Journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Submission URL: https://semarakilmu.com.my/journals/index.php/fluid_mechanics_thermal_sciences/authorDashboard/submission/312

Username: amrizal

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

[J. Adv. Res. Fluid Mech. Therm. Sc.] Editor Decision

2022-03-29 08:47 AM

Amrizal Nalis:

We have reached a decision regarding your submission to Journal of Advanced Research in Fluid Mechanics and Thermal Sciences, "ICOMEET - Performance analysis of PV/T-TEC collector for the tropical climate conditions of Indonesia".

Our decision is: Revisions Required

Please submit the revised article by 26 April 2022.

Kindly attach a rebuttal letter or list of corrections in the revision.

Editorial Comments:

Grammar and Spelling:

Reviewer A:

Grammar and Spelling:

No language mistakes. Good sentence and paragraph structure and transitions.

Abstract:

Abstract section is excellently written. The abstract has all the required elements that are connected properly.

- Introduction
- Aims/objective
- Methodology
- Results
- Discussion

Research gap and objective (Novelty):

Research gap/Problem statement well defined but the objective is not clear.

Quality of Tables and Figures:

Tables and figures have excellent clarity and numbered. All tables and figures are mentioned in text and properly discussed.

Conclusion:

Conclusion related to objective. Well written.

References:

More than 15 references within 5 years of study are required.

Recommendation: Revisions Required

Note

Dear Dr. Nor Azwadi Che Sidik

We have highlighted the changes within the manuscript. Here is a point-by-point response to the reviewer comments and concerns.

Comments from Reviewer

Comment: [Grammar and Spelling: No language mistakes. Good sentence and paragraph structure and transitions.]

Response: N/A

Comment: [Abstract: Abstract section is excellently written. The abstract has all the required elements that are connected properly]

Response: N/A

Comment: [Research gap and objective (Novelty): Research gap/Problem statement well defined but the objective is not clear]

Response: We agree with this and have incorporated your suggestion. The objective of this study has declared clearly as seen on the revisions (at the end of introduction):

" Therefore, the main objective of this study is to characterize the performance of PV/T-TEC in term of thermal and electrical efficiency based on Bandarlampung climate conditions (latitude of 5°27'S and longitude of 105°16'E)."

Congratulations, your paper has been published!

Dear Amrizal, Amrul, Warih Winardi, Joko Prasetyo, Muhammad Irsyad,

Your work has now been published in the [Journal of Advanced Research in Fluid Mechanics and Thermal Sciences 95, no. 2](#).
