## LIVELIHOODS ASSETS CHANGES OF COMMUNITY FOREST FARMERS ON PROTECTION FOREST

Hari Kaskoyo, Slamet Budi Yuwono, Christine Wulandari, Rommy  
Qurniati and Irwan Sukri Banuwa

**ABSTRACT:** Community forest program on protection forest has been launched by Indonesian governance since 1998. The program accomodate local community living around to acces the state forest. They get many benefit from the state forest and use it to improve their livelihoods. Objective of this research are to understand the changes of livelihoods assets of community forest farmers during the community forest program. Livelihoods assets should be better to reach Sustainable livelihoods.

**Keywords:** livelihoods assets, protection forest, community forest, Indonesian's state forest.
